Withdraw Rules

- There are two functions for withdrawal in the contract
 - Withdraw: users can withdraw profits of each deposit separately
 - WithdrawAll: users can withdraw profits of all deposits together
- Both functions have an input which can be 1 or 2
 - 1: will withdraw the deposit profit
 - 2: will withdraw the hold profit
- If a user withdraws deposit profit before the end of plans, the hold profit is deactivated, and users can not withdraw the hold profit
- If a user has withdrawn hold profit and tries to withdraw deposit profit before the end of the plan, the hold profit will deduct from the deposit profit
- After the end of a plan, the active deposit decreases and users can make a new deposit or reinvest.

Referral System (Match Bonus)

The contract pays referral commission over 1 level

Total Referrals	< 11	< 31	< 51	< 71	< 100	> 100
Commission	2%	3%	5%	7%	10%	20%

- The total referral is the number of direct referrals
- Users should claim referral commission separately via "bonusClaim"

Notes:

- Referral should be an active user; it means the referral address has at least one deposit
- The referrer is specified once at the time of the first deposit and is assigned to the user without the possibility of changing. From each subsequent Deposit, the referrer will get his percentage.
